ubermosh original soundtrack

Honestly, I have to say that the soundtrack to Ubermosh is one of the best that I've ever heard. The musicianship is great, as is the composition. Like the game itself, the whole album is incredibly addictive. If you enjoy rock, buzzsaw guitars and a little bit of industrial - or, if you just want to bring the pulse-pounding power of the game into your everyday routine - then this album is for you. Check it out.. Great rockin' soundtrack. great bass if only game was as good. One of the best soundtracks gaming has ever seen.

10/10 ~What did you expect, really?. Great soundtrack just love it. great bass if only game was as good. pretty good. The OST for this game is fantastic! If you like the kind of music with no lyrics that sounds different than usual, then you're in for some good jams. The OST fits the game so well, here is a 10/10..

. good soundtrack for bullet cutters

AWESOME SOUNDTRACKS.. Great Game!!!!. very good game and legit. It's nice to be able to hear more than 30 seconds of each tracks.. A great soundtrack for a great price. Hard-hitting, catchy. Even without the action of the game on screen, the music leaves an impact.
